

PAX A910 Is the First To Obtain PCI-PTS Version 6.x Certification

(Hong Kong, PRC, 9 September 2020) **PAX Global Technology Limited** (“PAX” or the “Company” or the “Group”, HKSE stock code: 00327.HK), one of the world’s leading providers of electronic payment terminal (“E-payment terminal”) solutions and related services, is pleased to announce that PAX’s A910 is the world’s first to obtain PCI PTS version 6.x approval.

As a member of the participating organization in the PCI SSC (Payment Card Industry PCI Security Standards Council), PAX is committed to providing feedback for the standards development process and advanced PCI management. Working with Brightsight, the world's largest security evaluation lab, PAX A910 obtained the first version 6.x PCI-PTS approval worldwide in June 2020. As the most cost-effective and fully certified mobile Android SmartPOS solution, A910 is widely favoured by merchants all over the world.

Alex Dong, VP of R&D at PAX, said, "We're delighted to see PAX A910 received the first 6.x PCI-PTS approval. As always, we devote dedicated efforts to R&D to maintain continuous innovation and safeguard payment system security. Thanks to the expertise of our trusted partner Brightsight, PAX completed the highest standards of security evaluation in such a quick period."

Wim Seinen, Senior Vice President of Systems at Brightsight, said, "Brightsight is proud to complete this achievement with PAX, the leading global manufacturer of payment terminals. Due to excellent teamwork we managed to evaluate the innovative PAX A910 device under the latest PCI-PTS requirements and managed to be the very first 6.x approval worldwide."
